

# CONTROLLING.

Control is not an illusion!

Use simpleOFFICE® to make the right decisions at the right time. Make the continuous control of all your corporate figures your tool for strategic and long-sighted success planning.

Everything under control!

Controlling made easy with simpleOFFICE®

## >> THIS IS HOW YOUR CONTROLLING WORKS WITH simpleOFFICE®

- **SOLVENCY CONTROLLING**  
We prepare a controlling report on your solvency status quo for you. It supplies the key performance indicators, trends, threshold levels and analyses regarding your success, your financial resources, your capital, your top customers and your top suppliers.
- **SUCCESS CONTROLLING**  
The controlling report “success” indicates whether the actual figures of your company are in positive proportion to the budget figures previously defined in success management.

## >> OUR SOLVENCY CONTROLLING SERVICES

- Supervision and control of development of sales and costs
- Supervision and control of threshold levels
- Supervision and control of key financial ratios

## >> OUR SUCCESS CONTROLLING SERVICES

- Evaluation of budget figures and actual figures of your company
- Early detection of deviations from budget figures
- Active consultation regarding your further corporate strategy

>> THE 3 BIG ADVANTAGES OF CONTROLLING WITH simpleOFFICE®

- + Prospective full-year results based on real figures
- + Continuous control of all current operating figures
- + Maximum control of income and expenditure

---

**= Maximum control for business management**
